

RISING SUN

THE SONGS OF ARUNACHAL WOMEN

CELEBRATING COMMUNITY BASED CHANGE IN ARUNACHAL PRADESH

WOMEN SING of the changes they have seen in their villages: children are healthier, villagers have more access to fresh vegetables, and people are uniting to make change. With support from Future Generations Arunachal, women have created councils to educate community members and engage them in implementing solutions. They meet weekly, opening each meeting with singing.

This CD opens with women singing the FGA song, written especially to celebrate their work. These songs were recorded in Palin, Paslghat, Siro, Ziro and surrounding villages. Special thanks to the women who participated and for everyone who assisted with this recording. To our knowledge, this is the first CD of music from Arunachal Pradesh, the land of the rising sun in Northeastern India.
